

Cloud

Manufacturing App Stacks

Producing information to take
your business forward

If you're looking to produce a product on a small or large scale, cloud software can help utilise time effectively and by collaborating processes with apps can help you understand your business to ensure it continues to grow.

What apps could help me?

- Payment services to stock to accountancy software in one click. Many apps now allow integration with websites meaning stock updates automatically.
- Automate your administration expenses.

How much do they cost?

- Costs range depending on your budget and requirements.
- MT Cloud will explain all costs and benefits to help you make the best decision for your business.

“ Local, regional or national production, the MT Cloud team can tailor apps for your needs. ”

Build an online business – no matter what you do!

- Integrate with inventory and your accounts.
- Bring or maintain your business online.

Create an e-commerce website backed by powerful tools that help you find customers, drive sales and manage your day-to-day.

A flexible, open-source e-commerce platform. Whether you're launching a business or taking an existing brick and mortar store online.

Save time, less bookkeeping with a data processing app

- Photo and upload receipts directly to your accountancy software.

Reduce time spent inputting bills and expenses. Simply scan, photo or forward an email.

Reduces data entry by accurately capturing information from bills and receipts and publishing it to Xero; making it easy to match transactions to the Xero bank feed.

Inventory that flows as your business grows

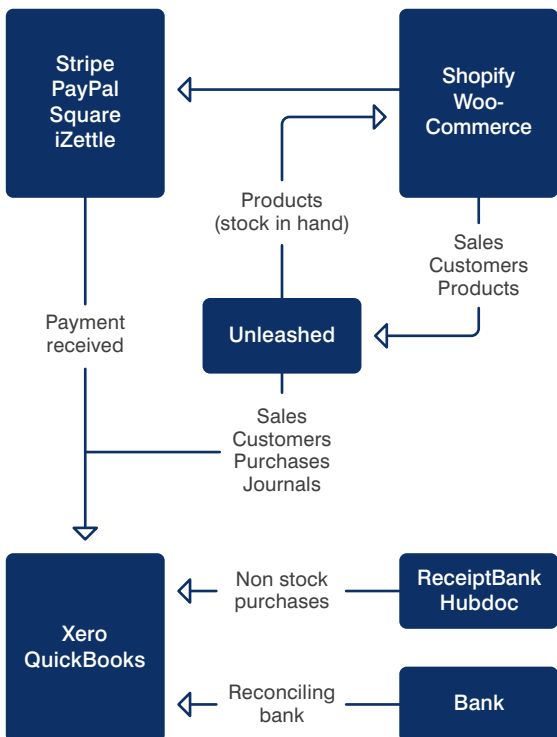

- Link your inventory system with your sales and purchases to have a real time understanding of your stock.
- Information feeds from inventory to sales platform, updating customers on availability.

UNLEASHED

Provides online inventory, allowing accurate costs, margins and stock control.

The whole package

Help us, help you - pick a cloud package that suits your needs.
