

IS YOUR BUSINESS ELIGIBLE FOR FUNDING?

At Moore Thompson, we know there is a world of difference between applying for grants and securing them, but first of all you need to know whether your business is eligible for funding.

1

Are you a small to medium-sized enterprise (SME) or micro enterprise – sole trader, partnership, limited company, social enterprise, not-for-profit business or registered charity?

2

Is your business in one of the following sectors: agriculture, horticulture, charity, community or voluntary, engineering, manufacturing, wholesale, transport and logistics, health or education?

3

Do you need to purchase equipment, machinery or technology; improve processes; make improvements to business premises that create extra capacity and enable growth or create jobs; carry out research and development; launch a product or service; implement energy efficiency measures?

If you meet the above criteria, and depending on your location, grant funding could be available. To find out whether you qualify, or for an informal free chat, please contact us.

Our Grant Services Manager **Janet Brown** is widely experienced in grant funding and related policy research. An accomplished bid writer, Janet has a long-standing track record in securing UK and EU grants – and specialises in working closely with local authorities, charities, small and medium-sized enterprises (SMEs) and multi-agency partnerships to make funding happen.
